GAF PRICING ANNOUNCEMENT FOR COMMERCIAL POLYISO PRODUCTS (USA, Canada and Export)

Dear Friends:

Due to both supply-demand dynamics in raw materials and increased freight costs across North America, please be advised that pricing for all GAF's EnergyGuard polyiso products will be increasing by 3-5%, effective May 1, 2026.

As you know, polyiso products are highly sensitive to raw material increases. Similarly, polyiso is uniquely impacted by higher freight costs due to the lightweight yet bulky nature of the product. We are seeing a steady trend toward higher lane costs, especially for carriers with reliable services. Since we quote a delivered price, we are forced to increase pricing to offset these premiums.

Existing quotations will be honored through the expiration dates given at the time of original pricing.

Please contact your local sales representative should you have questions or concerns. We are here to listen and work together. Thank you for your support and your relationship with GAF Commercial.

With my best,

Alma Garnett
Executive VP and Chair
