Appleton Supply, Award Metals, Dot Metals, NORWESCO, SBC, SEMCO, Quality Aluminum Products

February 16, 2026

Dear Friends and Partners,

We appreciate your continued support and patience as we battle through these current economic challenges with regards to aluminum. As we're sure you are aware, the cost of aluminum continues to increase – the Midwest Premium and LME / Ingot are at record high levels. We have experienced significant increases in the past 12 months. In addition, our paint costs, corrugated packaging costs and shipping costs continue to be negatively affected by our current higher rate of inflation.

As a result of these current economic challenges and resulting increased costs driven by aluminum, please note that orders placed on and after **March 16, 2026,** we will be increasing the prices on our aluminum, steel and import products. Percentages of increase are:

- **Aluminum Trims & Flashing Products 10% - 13%**
- **Galvanized Steel Trims and Flashings 5%**
- **Import Items 15%**

Thank you for your continued support and for your understanding of the need for this increase. Again, we appreciate your business. Please don't hesitate to contact us with any questions.

Sincerely,

Donnie Anderson
