March 18, 2026

To Our Valued Customers:

Due to significantly increased resin prices, as well as other raw material and manufacturing cost increases, we find it necessary to implement a price increase of 6-9% on all products. The increase will apply to all orders shipping after April 20th, 2026, and all prior price deviations are no longer valid. Your local representative will be in touch shortly to discuss any open orders that may be affected by this increase. We are preparing new price sheets and will have them to you as soon as possible. This increase will be reflected in the total price of the product.

Given the sharp increase in ocean freight costs, fuel costs, and the impact of global "war risk" insurance premiums, freight surcharges may also need to be applied as conditions evolve. That said, we are actively monitoring these factors and are committed to minimizing any impact on our partners wherever possible. Thank you for your continued partnership!

Best Regards,

-Sentry Building Innovations Management Team
