May 5, 2026

To: Atlas Polyiso Roof and Wall Insulation Customers

Subject: ACFoam® and EnergyShield® Polyiso Price Increase Notice – USA, Canada, Mexico

While it is our priority to manage costs effectively, and minimize any price increase to our customers, we find it necessary to raise prices due to significant cost increases for the raw materials and freight used to make and transport Atlas polyiso insulation products.

Effective with all shipments beginning July 1, 2026, Atlas will be increasing prices up to 8% on all ACFoam roof insulation and EnergyShield wall insulation products.

The following freight surcharges will also be effective June 1, 2026:

- Deliveries of 0-200 miles from our shipping location – $325.00
- Deliveries of 201+ miles from our shipping location – $425.00

All existing project quotes will be honored to the specified expiration date.

We appreciate your loyalty to Atlas.

Sincerely,

Robert Ferree
Vice President/General Manager
Atlas Roof and Wall Insulation Division
